

WHAT'S COMING // 2027

One connected system. Learn. Prove. Operate. Report.

DaemonCore's 2027 direction connects expert training, evidence-led ranges, authorized assessment operations, professional teams and purpose-built field hardware.

Q1 SHIP THE FOUNDATION

Stable 7.0, signed releases, automatic updates, rollback, accessibility and production support.

Q2 ACADEMY PROFESSIONAL

Adaptive pathways, deeper blind practicals, instructor workflows and role-based certification tracks.

Q3 FIELDOPS TEAMS

Shared review, approval workflows, enterprise integrations and a governed assessment adapter SDK.

Q4 DC FIELD SYSTEMS

Pilot Field Node, Bridge and Vault hardware with deployment kits and an operator certification path.

FOUNDING OPERATORS

Early support should matter.

The intended direction is to honor existing one-time FieldOps licenses while future subscriptions fund continuous ranges, integrations, support and team infrastructure.

PROPOSED COMMERCIAL STRUCTURE

Built to grow with the operator.

Pricing is directional and may change before launch.
